

## **Pralsetinib**

### **for treating RET fusion-positive locally advanced or metastatic non-small-cell lung cancer**

**Technology Guidance from the MOH Drug Advisory Committee**

#### **Guidance Recommendations**

The Ministry of Health's Drug Advisory Committee is unable to make a recommendation on pralsetinib for inclusion on the MOH List of Subsidised Drugs because the company has withdrawn its application from the company-led submission process due to the decision to end its global collaboration agreement to develop and commercialise pralsetinib. This submission was for treating rearranged during transfection (RET) fusion-positive, locally advanced or metastatic non-small-cell lung cancer.

 Agency for Care Effectiveness - ACE  Agency for Care Effectiveness (ACE)

### About the Agency

The Agency for Care Effectiveness (ACE) was established by the Ministry of Health (Singapore) to drive better decision-making in healthcare through health technology assessment (HTA), clinical guidance, and education.

As the national HTA agency, ACE conducts evaluations to inform government funding decisions for treatments, diagnostic tests and vaccines, and produces guidance for public hospitals and institutions in Singapore.

This guidance is not, and should not be regarded as, a substitute for professional or medical advice. Please seek the advice of a qualified healthcare professional about any medical condition. The responsibility for making decisions appropriate to the circumstances of the individual patient remains with the healthcare professional.
