

Sitagliptin

for treating type 2 diabetes mellitus

Technology Guidance from the MOH Drug Advisory Committee

Guidance Recommendations

The Ministry of Health's Drug Advisory Committee has recommended:

- ✓ sitagliptin 25 mg, 50 mg and 100 mg tablets

in line with their registered indications for improving glycemic control in patients with type 2 diabetes mellitus, in view of acceptable price proposal from the manufacturer.

Subsidy status

Sitagliptin 25 mg, 50 mg and 100 mg tablets are recommended for inclusion on the MOH Standard Drug List (SDL) for the abovementioned indications.

SDL subsidy **does not** apply to combination products containing sitagliptin or other DPP-4 inhibitors.

Technology Guidance

About the Agency

The Agency for Care Effectiveness (ACE) was established by the Ministry of Health (Singapore) to drive better decision-making in healthcare through health technology assessment (HTA), clinical guidance, and education.

As the national HTA agency, ACE conducts evaluations to inform government subsidy decisions for treatments, diagnostic tests and vaccines, and produces guidance for public hospitals and institutions in Singapore.

This guidance is based on the evidence available to the MOH Drug Advisory Committee as at 7 Apr 2022. It is not, and should not be regarded as, a substitute for professional or medical advice. Please seek the advice of a qualified healthcare professional about any medical condition. The responsibility for making decisions appropriate to the circumstances of the individual patient remains with the healthcare professional.
